Projects

AI-Powered Career Advisor | Python, Machine Learning, AI Integration

Jan 2025 - Feb 2025

- Developed an **AI-driven** career guidance system using **Python** to predict the best career path for students
 - Trained **machine learning models** (Decision Tree, Random Forest, SVM, Clustering) using **Pandas, NumPy, Scikit-learn**
 - Integrated **Gemini 2.0 Flash Lite API** for AI-powered career recommendations with logical explanations in tabular format
 - Built an **interactive API** to allow users to input academic performance, extracurricular activities, and personal interests for customized **career suggestions**
 - Implemented an advanced user query handling **feature to guide students** on potential career shifts based on their hobbies
- GitHub - [Repository Link](#)

Prediction of Diabetes | Machine Learning, R-Programming, Data Analysis

July 2024 - Oct 2022

- Engineered a diabetes prediction model leveraging **R Programming**, R Studio, and **R Markdown** to analyze patient data
 - Applied **supervised learning** techniques to determine the likelihood of diabetes based on various health conditions
 - Integrated **machine learning models**, including **Knn, Naive Bayes, Logistic Regression, Clustering, and Decision Trees**
 - Achieved a **93% accuracy** rate by optimizing model parameters and refining **data preprocessing techniques**
- GitHub - [Repository Link](#)

Sales Data Deep Analysis & Dashboarding | Tableau Prep, R, Data Mining, Data Visualization

Sept 2024 - Dec 2024

- Developed an interactive Sales Analysis Dashboard in R Studio and Tableau to analyze national and **regional sales trends**
 - Utilized **Kaggle** datasets for data extraction and processing to uncover **key business insights**.
 - Implemented multiple **analytical models** to identify best-selling products, low-performing products, and regional sales variations
 - Designed and structured data-driven visualizations and **dashboard stories** to enhance **strategic decision-making**
 - Delivered actionable recommendations to improve **operational efficiency** and **sales performance**
- GitHub - [Repository Link](#)

Certificates

Complete Interview Preparation - Self-Paced DSA

July 2024

Geeks for Geeks - [Certificate Link](#)

R Programming

Apr 2024

Coursera — [Certificate Link](#)

Google Cloud Computing

Nov 2024

NPTEL — [Certificate Link](#)

Data Structure and Algorithms

Feb 2024

Udemy — [Certificate Link](#)

Technical Skills

Languages: Java, Python, R-Programming, SQL

Technologies/Frameworks: CSS, MySQL, Git, Tableau Desktop, Microsoft Office

Skills: Data Analysis, Machine Learning, Problem-Solving, Leadership, Project Management, Adaptability

Education

Lovely Professional University

Jalandhar, Punjab

Bachelor of Technology - Computer Science and Engineering; CGPA: 7.06

2022 - 2026

Sarvodaya Sr. Sc. School

Kota, Rajasthan

Intermediate; Percentage: 90 %

2019 - 2021

Kendriya Vidyalaya No 2

Hubli, Karnataka

Matriculation; Percentage: 92%

2019
