SKILLS

- **Languages** Java, Python, R-Programming, SQL
- **Frameworks** HTML, CSS
- **Tools/Platforms** MySQL, Git, Tableau Desktop, Tableau Builder, Microsoft Office
- **Soft Skills** Problem-Solving, Leadership, Project Management, Adaptability

PROJECTS

- **AI-Powered Career Advisor - Student Career Prediction** January 2025 - February 2025
Developed an AI-driven career guidance system using Python to predict the best career path for students
Trained machine learning models (Decision Tree, Random Forest, SVM, Clustering) using Pandas, NumPy, Scikit-learn
Integrated Gemini 2.0 Flash Lite API for AI-powered career recommendations with logical explanations in tabular format
Built an interactive API for career suggestions based on academics, activities, and interests
Implemented an advanced user query handling feature to guide students on potential career shifts based on their hobbies
Tech: Python, Flask, Scikit-learn, Pandas, NumPy, Google Gemini API, Machine Learning, AI Integration
- **Predictive Analysis - Prediction of Diabetes:** July 2024 - November 2024
Engineered a diabetes prediction model leveraging R Programming, R Studio, and R Markdown to analyze patient data
Applied supervised learning techniques to determine the likelihood of diabetes based on various health conditions
Integrated machine learning models, including Knn, Naive Bayes, Logistic Regression, Clustering, and Decision Trees
Achieved a 93% accuracy rate by optimizing model parameters and refining data preprocessing techniques
Tech: R Programming, R Studio, R Markdown, Machine Learning, Data Analysis
- **Tableau - Sales Analysis Dashboard:** September 2024 - December 2024
Developed an interactive Sales Dashboard to analyze national and regional sales trends using advanced visualization techniques
Utilized data extraction and processing methods on Kaggle datasets to uncover key business insights
Implemented multiple analytical models and created data-driven visualizations to represent sales performance effectively
Designed and structured dashboard stories for enhanced data interpretation and strategic decision-making
Tech: Tableau Prep, Tableau Builder
- **Sales Data Deep Analysis Dashboard** February 2024 – April 2024
Designed a comprehensive sales analysis dashboard in R Studio to extract meaningful business insights
Leveraged various libraries for data preprocessing, visualization, and statistical analysis to ensure accuracy
Analyzed sales patterns, identified best-selling and low-performing products to optimize strategies
Delivered actionable recommendations on regional sales variations and team performance to enhance operational efficiency
Generated interactive graphs, word clouds, and dynamic visual reports to improve data-driven storytelling
Tech: R Programming, R Studio, ggplot2, MySQL, Data Cleaning, Data Visualization

CERTIFICATES

- Complete Interview Preparation - Self-Paced (DSA) by GFG May 2024 - July 2024
- Development in Programming by Programming Pathshala Since January 2025
- R Programming - By Coursera February 2024-April 2024
- Google Cloud Computing - By NPTEL August 2024-November 2024

ACHIEVEMENTS

- **Attended Cyber Security Summit 2023**
Got to know about importance of Cyber Security and threats to data fishing
- **Been part of NCC and Attended 2 camps**
Among the 5k+ participants secured 13th rank in B certification exam
- **Played National in Kho-Kho**
As a team member of Kendriya Vidyalaya Karnataka team

EDUCATION

- **Lovely Professional University** Jalandhar, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.8** Since August 2022
- **Sarvodaya Sr. Sc. School** Kota, Rajasthan
Intermediate; **Percentage: 90 %** April 2019 - March 2022
- **Kendriya Vidyalaya No 2** Hubli, Karnataka
Matriculation; **Percentage: 92%** April 2016 - March 2019
